-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1745

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-74, drawn to a fuel cell, classified in class 429, subclass 38.
- II. Claims 77-80, drawn to a method of making a porous film, classified in class 216, subclass 56.
- III. Claims 81-82, drawn to a method of embossing a substrate, classified in class 427, subclass 271.
- IV. Claims 83-84, drawn to making a mold, classified in class 264, subclass 219.
- V. Claims 85-93, drawn to lithographing a wafer, classified in class 427, subclass 259.
- VI. Claim 94, drawn to a method of packaging, classified in class 438, subclass 119.
- VII. Claim 95, drawn to a method of making fuel cells, classified in class 427, subclass 115.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and VII are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product may be made by a materially different process, such as one which does not use wafers.

Inventions I, II, III, IV, V and VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the

Art Unit: 1745

instant case the different inventions have different functions, because inventions II through VI are methods of making different products, while invention I is a fuel cell, and thus not one of the products made by practicing inventions II through VI. Invention VII is related to invention I, and thus also unrelated to inventions II through VI.

Because these inventions are distinct for the reasons given above and the search required for Groups II through VII is not required for Group I, restriction for examination purposes as indicated is proper. Also, Groups II through VII would each require its own respective search.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
